

The Futures Anthropology Network (FAN) was approved in October 2014 as a result of a series of activities that a group of us undertook in Tallinn in August 2014 that lead to an interest in forming a new network. At the moment Sarah Pink and I have agreed to lead the network, and Lydia Nicholas has done preliminary work as External Communications Officer by setting up a wordpress site.

The two main activities we have been working on since October 2014 are: a networking meeting and workshop planned for June 22-24 2015 in Barcelona where about 20 network members will be meeting to present current work, collaborate on potential projects and plan ahead towards EASA 2016; and then an edited volume that we are coordinating and which is currently in development as there is interest from a major publisher.
