

Security Network 2015 report

1. Network members, alongside the well-known anthropologist Seth Low, received Wenner-Gren Foundation funding for a workshop to be held in Ireland from 24 - 27th April 2016. The workshop will focus on 'Spaces of Security', which will also be the theme of our EASA panel in 2016. The workshop will include an impressive line-up of participants, such as Seth Low, Joseph Masco, Daniel Goldstein, Didier Bigo, Catherine Lutz and Katherine Verdery. The workshop is closed, but those interested in the anthropology of security are invited to the opening session on 24th April.
2. Mark Maguire, Ursula Rao and Nils Zurawski are currently preparing an edited volume titled, *Bodies of Evidence*, which draws participants from EASA 2014.
