

As per EASA rules I am sending you a report regarding NET's yearly activities. Please see my previous email regarding a report I sent you regarding a workshop NET organised this past September. In addition, NET has maintained an active blog at <https://networkofethnographictheory.wordpress.com>

I have also arranged to post interviews with the workshop participants up on the blog. I sent the interviews in October and participants are taking a while to reply, but I already have one by Susan Blum and hopefully more will follow. We are looking forward to a busy 2018 and we are planning on contributing to the EASA 2018 conference call with at least one NET panel.
